

# AMERICA'S UNKNOWN HERO COMES HOME

## CRUISER OLYMPIC IS ANCHORED IN WATERS OF CHESAPEAKE BAY

Today the Ship Will Steam Up the Potomac  
to the Thunder of Guns, the Tribute of a  
Grateful Nation for the Supreme Sacrifice  
—Will be Taken in Charge by Comrades

(By The Associated Press)  
WASHINGTON, Nov. 8.—America's unknown dead from France was in home waters tonight, riding in highest state aboard the old cruiser Olympia over the waters of Chesapeake Bay. Tomorrow to the crash of guns from saluting forts and naval posts, the treasured casket in tribute to which the nation centers its sorrowful pride in those other sons sleeping in France, will move in honored progress up the historic Potomac. And in preparation for its arrival in the nation's capital late tomorrow events were shaping themselves toward a climax of honors on Armistice Day.

As the Olympia steams at measured speed up the river the guns of Fort Washington will roar the national salute of twenty-one guns to her half masted flag. Off Mount Vernon, the ship of the unknown hero will pay its homage to the tomb of the greatest American, Washington.

Again at Washington barracks a battery will hammer out its twenty-one gun message of highest military honor to be repeated again at Washington navy yard as the old ship pulls into dock at the end of her journey.

## ERNEST WOOD IS ELECTROCUTED AT HILLVIEW TUESDAY

Comes in Contact  
With Wire Carrying  
33,000 Volts

WHITE HALL, Nov. 8. (Special to the Journal).—Ernest Wood, of Louisiana, Mo., was electrocuted at the pumping station of the Hillview Drainage and Levee district ten miles west of here at 1:30 o'clock this afternoon when he came in contact with a high tension wire carrying 33,000 volts.

Death was instantaneous. Coroner Ross Edwards of Carrollton went to Hillview this afternoon where he held an inquest at 4:30 o'clock. The jur returned a verdict of accidental death.

Wood, who is employed as a helper by a man of the name of Clay of Louisiana, Mo., was engaged in placing guttering on the new pumping station of the drainage district which is being erected by the Caldwell Engineering company of Jacksonville.

A high tension wire of the Central Illinois Public Service company passes over the building. Wood accidentally touched the wire with a piece of metal guttering, causing instant death.

Those who saw the accident were afraid to touch the body for some time for fear that it was still in contact with the current.

The foreman in charge of the work for the Caldwell company immediately notified H. L. Caldwell at Jacksonville who instructed them to notify the coroner and J. H. Fox, undertaker at White Hall who went and took charge of the remains.

Wood was 36 years of age and leaves a widow and five children. The remains will be sent to Louisiana, Mo., for funeral services and burial.

## JAPAN WILLING TO REDUCE HER NAVAL PROGRAM

Admiral Kato Says  
His Country Cannot  
Do It Alone

(By The Associated Press)  
WASHINGTON, Nov. 8.—After reiterating that Japan is ready to cut down her naval program in agreement with the powers provided the safety of Japan is assured Admiral Baron Tomosaburo Kato, minister of marine and ranking head of the Japan delegation to the armament conference here proceeded today to answer the specific question "what is Japan's justification for a big navy?"

"Every nation," he declared during a conference with newspaper correspondents feels the necessity of self defense and knows that forces sufficient for self defense must be provided. The degree depends on many factors and conditions internal and otherwise and the relations of the country with other powers. For instance the admiral continued, "In the far east Japan occupies an insular position. Should there exist a nation that intends to make an attack upon Japan, it is the naval force alone that can defend our empire. Japan is not self sufficient. The question of the smallness or greatness of a navy depends upon the point of view of each nation concerned. I do not consider the navy of Japan a great one. The plans already adopted are much inferior to the programs adopted by Great Britain and the United States."

Baron Kato said he wanted to bring out clearly that Japan's position on naval reductions had been precise and unvaried since he first announced it in Tokio over a year ago and he wanted the American people to understand that Japan goes into the approaching conference with the willingness to cut down the so-called "eight-eight" program provided an agreement with the other powers can be obtained.

"Japan Cannot Do It Alone." The limitation of armaments cannot be effected by Japan alone. "At the approaching conference many propositions may be made. If they demand the cutting down of our program we are ready to do so. I want to make it perfectly clear that that is Japan's attitude."

"Does Japan think that she requires as strong a navy as Great Britain and the United States?" he was asked.

"Japan has never expected," he replied, "nor has she entertained the idea that she should possess a navy equal to that of Great Britain or the United States—she has never thought even of equaling the navies of those countries, let alone exceeding them."

The eight-eight Japanese naval program referred to by Admiral Kato really means an eight-eight program, because it signifies that each one of the eight dreadnaughts and eight modern battle cruisers making up the program is to be replaced at the end of eight years service. This means that Japan must build two super-warships every year each at a cost of about 30,000,000, and that simultaneously she must make further tremendous outlays in replacing the auxiliary ships and aircraft necessary to round out her main fleet.

It is this stupendous outlay which, in the opinion of responsible Japanese, Japan is in no position to stand.

## Hylan Re-Elected Mayor of New York

(By The Associated Press)  
NEW YORK, Nov. 8.—Mayor John F. Hylan, Democrat, was re-elected today by the largest plurality ever given a mayoralty candidate in this city.

The vote, with 289 districts out of 2,709 in the city missing, was: Hylan, 665,770; Henry H. Curran, (Republican, running on a coalition ticket) 296,082; Jacob Panken, Socialist, 75,733.

If Hylan's ratio of gain is maintained in the missing districts his plurality will be about 413,000.

Mayor Hylan swept into office with him the Democratic candidates for city comptroller, president of the board of aldermen and the five borough presidencies. The ticket elected was:

Mayor—John F. Hylan.  
Comptroller—Charles L. Craig.  
President of board of aldermen—Murray Hulbert.  
President of Borough of Manhattan—Julius Miller.  
President of Borough of Brooklyn—Edward F. Riegelmann.  
President of Borough of Bronx—Henry Bruckner.  
President of Borough of Queens—Maurice E. Connolly.  
President of Borough of Richmond—Matthew J. Cahill.

Mayor Hylan's plurality over John Purroy Mitchell, Fusion candidate in 1917, was 158,466. President Harding carried New York City by a plurality of 438,471 over James M. Cox, Democrat, in the presidential election of 1920.

Women voted in a municipal election here for the first time this year. Of the total of 1,263,940 voters, 447,015 were women.

The Socialist vote for mayor was lighter than that of 1917 when Morris Hillquit polled 144,973 votes.

In the statewide contest for associate judge of the court of appeals the vote in New York City with 339 districts missing was:

William S. Andrews, Republican, incumbent, 323,748; Townsend Scudder, Democrat, 556,952; and Hezekiah D. Wilcox, Socialist, 90,523.

## LITTLE LOOT WAS SECURED BY THE POSTAL ROBBERS

Chief Postal Inspector Says  
It Will Not Be  
Over \$400

(By The Associated Press)

CHICAGO, Nov. 8.—E. A. Gerner, chief postal inspector, at noon announced that the loot obtained by six robbers who held up an Illinois Central train near Paxton, Ill., last night fought a forty-five minutes battle with the train crew and passengers, wounding five men, dynamited and burned the mail car, will total approximately \$400.

"They got two pouches or registers and mail and overlooked two others," Mr. Gerner said. "One of those overlooked is said to have contained \$100,000."

"In the two they took," Mr. Gerner said, "there was nothing but the ordinary run of registered mail—no bank shipments or other packages of special value. It will take a week to see each individual sender and check up the exact loss, but I estimate it at about \$400."

Struck Men With Revolvers.  
MEMPHIS, Tenn., Nov. 8.—Bandits who held up Illinois Central passenger Train No. 3 near Paxton, Ill., last night struck down the mail clerks by blows over the head with the butts of their guns after the clerks surrendered and leaped from the mail car with hands upraised according to passengers who witnessed the holdup.

The train with the baggage car peppered with bullet marks and several of the coaches bearing evidence of the fusillade fired by the robbers, arrived here today and continued on its journey to New Orleans.

J. J. Heokoksema, an Illinois Central employee who with R. H. Knowlton, a University of Illinois student, trailed the mail car after it had been uncoupled from the remainder of the train told of witnessing the bandits striking down the clerks when they jumped from the car with their arms upraised.

### Mail Car Damaged

Champaign, Ill., Nov. 8.—District Superintendent Heyron of the Illinois Central railroad reported tonight that the mail car which was burned by bandits in the holdup last night was damaged to the amount of \$25,000.

## SMALL TRIAL MAY BE SET THIS WEEK

(By The Associated Press)

SPRINGFIELD, Ill., Nov. 8.—The date for beginning the trial of Governor Len Small and Vernon Curtis in Waukegan on charges of embezzlement of \$2,000,000 of state funds may be set by the end of this week.

Counsel for the governor announced tonight that they will probably appear before Judge Clare C. Edwards next Saturday. Coupled with Governor Small's repeated demands for an early trial and the statement by his attorneys that they hoped the case would be underway some time next month the possibility of an actual setting this week was given some credence here.

Altho the next move in the legal jockeying was apparently up to them, the defense did not indicate what their first action in Lake county would be.

Edward Pre, chief assistant to state's attorney Mortimer, Sangamon county prosecutor and Assistant Attorney General James H. Wilkerson will go to Waukegan again Friday, Mr. Mortimer said tonight to be on hand when attorneys for the defense make their appearance.

### MAN ATTACKS GUARD

Chicago, Nov. 8.—Frank Li-grenli, condemned to be hanged tomorrow for wife murder, attacked Charles West, a jail guard who was taking him to the death cell.

## FRANCE IS READY TO LAY MILITARY CARDS ON TABLE

Country Desires Nothing  
be Withheld  
from the Public

(By The Associated Press)

WASHINGTON, Nov. 8.—M. Briand's desire in connection with the armament conference is that nothing should be withheld from the American public as to the military, the economic or the political situation of France or the reasons why that government is or might be impelled to one course or another. The military position and requirements of France are matters of anxious concern and General Lust, the chief of the French general staff, has brought with him to the conference a chest of documents respecting the present military strength of Germany and her potential power. These, it is said, include copies of secret instructions of the German ministry of war concerning the grouping of former officers, of which there are 250,000 into skeleton regimental formations, so that without delay military units could be created by summoning to the colors, former service men of which there are four or five million.

General Bust has with him a copy of the latest issue of the German army regulations published September third that does not deal, he points out with any army of 100,000 as provided under the treaty of Versailles but with forces on a vast scale, including corps, armies and groups of armies.

The army section of the French delegation also has brought reports respecting the small arms said to be concealed in Germany. Arms and artillery factories owned by Germans, according to these reports have been acquired or are being constructed around Germany beyond the supervision of the allied commission of control. Such establishments are indicated in Holland, in Switzerland and especially in Sweden. A large airplane factory is said to be in operation by Germans in Switzerland.

### Will Discuss Policy

General Bust and the principal officers with him are understood to be prepared to acquaint the conference of the French military policy fully with its aims—security and the necessary means for the execution of the Versailles treaty as interpreted by the allied supreme council. It will be shown, it is said, that the French army of about 900,000 last year, including officers, has been reduced this year to 750,000.

The army it is pointed out, is in process of further reduction to 660,000 as predicted in next year's appropriations. The coming into operation 18 month service law instead of that providing for three years will reduce the army in 15 months to between 450,000 and 500,000 it was said. A reduction below approximately 450,000 would be regarded by the general staff, it is said, as depending upon a favorable turn in events, or in the introduction of new elements in the situation.

Such an element it is held would be the pronounced "moral support" of the American government.

The firm in which this support might be given, it has been intimated is a declaration recognizing the justice of German reparations and the desire to see them paid. This is approached with considerable precaution however, the view being that the American government upon knowing all the facts of the French situation and giving them due weight, taking into account the French debts to America and the urgent need for saving and the probable tranquilizing effect upon the general economic situation of such an announcement might in the interests both of the United States and France, express in an authoritative manner its "moral position."

## MATTOON VOTES AGAINST MOVIES

(By The Associated Press)

MATTOON, Ill., Nov. 8.—Movies and other forms of theatre entertainment on Sunday will be prohibited here as a result of today's municipal election which decided against the question, "Shall moving pictures or theatricals or musical entertainments be permitted on Sunday," by a majority of more than 1,500 votes.

The voters also decided against the purchase of the capital stock of the Mattoon Clear-water company, involving an amount of \$80,000 by a majority of more than 3,000 votes.

## STAGE IS ALL SET FOR BIG CONFERENCE ON NAVAL DISARMAMENT

Senate Passes Resolution for Open Doors  
When Full Body of Delegates is in Session  
—President Harding Completes Address  
He is to Give at the Opening Session

(By The Associated Press)

WASHINGTON, Nov. 8.—The final interim of stage-dressing for the armament conference was ushered in today by developments which for the first time concentrated on the great diplomatic drama the alert attention of practically every element of Washington and its distinguished guests.

Even the senate took a hand in the last minute preparations by adopting with the tacit acquiescence of Republican leaders a resolution presented from the Democratic side of the chamber requesting that the doors of the conference room be opened whenever the full body of delegates were in session and that a record be kept of everything that transpired during the negotiations.

Among those who will actually sit at the conference table, Admiral Baron Kato head of the Japanese delegation and naval minister of the Japanese government, made himself the center of attention by a public statement asserting that his nation was willing in the interest of a successful conference to reduce her naval building program if a satisfactory proportional agreement could be reached.

Meantime, Premier Briand of France, confining his public expressions to a general renewal of his nation's willingness to meet everybody else half way in the effort to reduce armaments, paid a round of official calls and familiarized himself with the situation in conference with his colleagues. Later he was received formally by President Harding.

### President Completes Address

Members of the newly arrived Netherlands' delegation also were given a formal audience late in the afternoon by the president who had spent much of the day at work on the address with which he will open the conference on Saturday. Tonight, the manuscript was virtually completed and Mr. Harding let it be known that it reflected his proposed course of conduct throughout the negotiations by dealing only in a broad way with the problems of the conference and leaving the specific presentation of American proposals to the American delegates themselves.

That these proposals have been completed so far as possible for the present, was indicated by the waiting attitude of the delegation which held no meeting today but marked time pending the assembling here tomorrow of the advisory committee of twenty-one selected by President Harding. It is expected that at this meeting members of the American big four will impart to the advisory body the program prepared for the opening days of the conference and ask for a final review of the subject matter involved.

During the day, the committee will also call on President Harding.

Upon every hand, there appeared today a growing belief that the details of organization and preliminary negotiation will be completed quickly and that when the conference is but a few days old it will find itself in the midst of its most serious work. So impressed are American officials with the prospect that they reflected a view today that something definite would be accomplished before Christmas.

## MINERS ADVISED TO KEEP AT WORK

(By The Associated Press)

PEORIA, Ill., Nov. 8.—The United Mine Workers of Illinois were advised by Frank Farrington, president, in the annual meeting here this afternoon to await the decision of the United States circuit court of appeals on the "check-off" system. In case the court decides against the "check-off" system, he urged the miners to let their officers decide the policy the union will take and remain at work until advised by the union officers to quit work.

After hearing the report of Walter Nesbit, secretary-treasurer, tomorrow morning the convention is expected to begin considering the multitude of resolutions which have been presented.

### ARRESTED ON MURDER CHARGE

St. Louis, Mo., Nov. 8.—Luke Kennedy was arrested in a raid here today at the request of police of Centerville, Iowa, who claim Kennedy shot a policeman there October 11.

## MARINES WILL BE PLACED ON GUARD ON MAIL TRAINS

Orders to Shoot to  
Kill to Protect  
the Mails

(By The Associated Press)

WASHINGTON, Nov. 8.—With orders to shoot to kill, if necessary, to prevent mail robberies, 1,000 marines were ordered to duty today as guards of mail trains and trucks and at postoffices in fifteen cities.

The men will be armed with pistols and sawed-off shotguns. Postmaster General Hayes announced after a conference with Major General Lejeune, commandant of the marine corps. The marines are to be replaced eventually he said, by a special force recruited from the postal service.

Arrangements for the services of the marines, the postmaster general said, were made with the secretary of the navy. The matter was discussed at today's cabinet meeting and President Harding is said to have expressed approval of Mr. Hayes' plan to check looting of the mails.

The postmaster general also announced that, as a result of the recent New York robbery, orders had been issued suspending from the service three New York office officials—Elijah M. Morris, superintendent of mails; Henry Lippman, superintendent of registered mail; and Walter S. Mayer, superintendent of money orders. Some of the marines, General Lejeune said, would board trains tonight and within twenty-four hours would be guard on practically all trains in the country carrying valuable mail.

Among the cities to which they will be sent for duty are Boston, New York, Philadelphia, Cleveland, Richmond, Atlanta, Chicago, St. Louis, Minneapolis, Kansas City, Dallas, San Francisco and Los Angeles.

Telegrams were dispatched tonight by the postoffice department, instructing postmasters and postal inspectors at these points to co-operate with the guards.

Declaring that it was proposed to protect the United States mails "to the last postal card, regardless of cost and sacrifice," Mr. Hayes said he wanted it known that the postoffice department had declared "open warfare" on the crooks and bandits of the country.

During the twelve months ending April 9 last, according to Mr. Hayes, a total of \$6,300,000 was stolen from the mails, but in the six months following the announcement that postal employees would be armed, the total stolen fell to \$318,869.

Watch for Announcement

It is taken into account that except  
in the case of Greece none of the  
war loans have been repaid, and  
in fact, there have been no inter-  
est payments. So it is very clear  
that the amount these nations owe  
to the United States is not respon-  
sible for present conditions.

The returns from the county  
election yesterday were turned in  
rapidly. The fact of few candi-  
dates made counting easy. Still  
another fact that made for early  
returns was that the same ballots  
were used for men and women,  
and no separate records were kept.  
This is not necessary with equal  
suffrage. Now that men and wo-  
men vote the same ballots the re-  
turns should always be in earlier  
than they have in the past years.

Several oil service stations are  
in process of construction here  
with others to follow. Evidently  
these familiar with the business  
see good times ahead for gas and  
kerosene consumption. What is  
true here is being duplicated in the  
scores of other cities. This service  
station building activity can be  
counted a good omen for the oil  
interests keep mightily well posted  
on the business trend.

The decision of the supreme  
court in the Springfield utility  
case settles a long mooted ques-  
tion. The court has decided that  
a municipally owned utility plant  
does not come under the jurisdic-  
tion of the state utility commis-  
sion. This means that a municip-  
ally owned plant may make the  
charges it deems proper for ser-  
vice without regard to the effect  
that such charges may have upon  
the business of a privately owned  
company. The decision is a vic-  
tory for the advocates of municipal  
ownership.

The order transferring 1,000  
marines to the railway mail ser-  
vice for protection against rob-  
bery affords the best kind of proof  
of the determination of the de-  
partment to put an end to mail  
thefts. Judging by the calibre of  
Postmaster General Hays and others  
associated with the present ad-  
ministration of affairs in the United  
States, if a thousand marines are  
not able to look after the job  
another thousand will be pressed  
into service. Bandits had just as  
well take notice and quit the busi-  
ness. This course will be the  
healthier for them.

**THE MILK  
ORDINANCE**  
The milk ordinance the city  
council proposes to pass at an  
early session is possibly not as  
drastic as the measure in its origi-  
nal form. However there are  
without doubt provisions in the  
ordinance which make possible  
the safe-guarding of the city's milk  
supply, and that is the purpose of  
the measure. One favorable fact  
about the proposed ordinance is  
that it has the approval of both  
the council and the milk men's  
representatives. Thru interested  
co-operative action the best re-  
sults can be secured.

In every time of epidemic the  
purity of the milk supply is al-  
ways questioned. It will be a  
great source of satisfaction at such  
times to know that the facts with  
reference to the supply are at  
hand. It is not too much to hope  
that the proper care of the milk  
supply may reduce the much  
talked about city death rate.

**THE ELECTION RESULT**  
By choice of the voters yester-  
day Frank L. Mawson is again a  
member of the county board, hav-  
ing been chosen by a handsome  
majority. Mr. Mawson is fully de-  
serving of re-election, as he has  
thruout his one year of service  
shown a decided wish to honest-  
ly and efficiently care for the in-  
terests of the county. The vote  
given him yesterday can be  
counted a vote of confidence and  
approval.

Mr. Hamilton, a highly respect-  
ed resident of the Orleans neigh-  
borhood and the opponent of Mr.  
Mawson on the Democratic ticket,  
received a vote for which he has  
no reason to be ashamed, altho  
not the successful candidate. His  
strongest supporters were in the  
districts where he is best known.

The result of the election is es-  
pecially interesting, showing as it  
does that the sentiment of confi-  
dence in the Republican party  
has not receded in the way that  
some of our Democratic friends  
had imagined to be the case. Busi-  
ness conditions are not just what  
the public had hoped for with the  
change in administrations, but on  
the other hand the majority of  
people are fair-minded enough to  
concede that it is too early to  
voice much feeling of dissatisfaction.  
The majority still has confi-  
dence that given a little time the  
leaders will find the way which  
leads to hoped for prosperity.

True, national issues were not  
involved in this local election but  
it is also true that in an election  
of this kind that public sentiment  
toward national party organiza-  
tions or policies is often ex-  
pressed.

**GOLF CLUB WILL  
HIRE PROFESSIONAL**

Action Taken at Meeting Held  
Tuesday Night—Will Also Lay  
Pipeline.

The Municipal Golf association  
met in the Chamber of Commerce  
rooms last night and decided to  
secure the services of a profes-  
sional for at least one year, if he  
proves satisfactory. The profes-  
sional chosen is Jack Keywood,  
assistant at the Edgewater club of  
Chicago. He will arrive in the  
city within a few days and direct  
the improvements to be made on  
the course.

The Caldwell Engineering com-  
pany, at the request of the as-  
sociation, has made an estimate of  
the cost of the improvements.  
This was presented at the meeting  
last night and the association vot-  
ed to adopt the report.

A committee from the golf as-  
sociation met with the park board  
recently to discuss matters in re-  
gard to the improvements, and  
the park board granted its permis-  
sion to make the improvements  
provided that they are made un-  
der the direction of a professional.  
The professional is now secured  
and the work will be started with-  
in two or three weeks.

The first improvement to be  
put in is a pipe line to five of the  
nine greens. It has been proved  
impossible to keep the greens in  
proper conditions without water,  
and this factor will go a long way  
towards improving the course as  
the greens need attention more  
than anything.

News Notes

Chapin, Nov. 8.—Miss Amy

esting meeting of the Chapin Wo-

Rev. Mr. Langton had with him

played. The very interesting and  
entertaining lecture was very  
much enjoyed and the club mem-  
bership expressed the hope that  
they might have the pleasure of  
again hearing Rev. Mr. Langton.  
The threatening weather hurric-  
d the closing part of the program as  
Rev. Mr. and Mrs. Langton were  
being returned by automobile to

**OLD JACKSONVILLE  
EARLY BOOKSELLING**  
(BY ENSLEY MOORE)  
Member Illinois State Historical Society

Pioneer storekeeping, to say  
nothing of the keepers, was a  
caution. The stocks, or lack  
thereof, as well as the lack of  
order, neatness and arrangement  
of them—aside from the paucity  
of value, was "a caution to  
snakes," as Frank Mitchell, of  
Jacksonville Female academy,  
(1859-1865), used to remark.

The proper development of  
various lines of trade was slow,  
the book business being one of  
these.

David B. Ayers came here in  
1830, grabbed the best corner in  
town, northwest one of West  
State street and the square, and  
opened a drugstore, which he ran  
over thirty years. He had  
some books in his stock, perhaps  
the first sold here.

About 1838, Robert Hocken-  
hull opened one of the best drug  
stores ever here, to which books  
were added. Singularly enough,  
those enterprising young men  
"kept books" so well that two  
banking houses came out of their  
ventures, one on the old stand  
of 1830.

In 1857, a two and a half-story  
frame stood at the southwest  
corner of West State and the  
square. Back of this was a one-  
story skeleton of a store, occu-  
pied by E. R. Peck, who sold  
some books and notions. Later  
on, west of this a pretty brick  
small brick two-story building  
was put up. After the end of  
the war this was occupied as a  
bookstore by Davis & Snelling.

Major William H. Snelling,  
from down Macoupin way, was  
one of the firm. He afterwards  
went to Lincoln, Neb., as a law-  
yer. Mr. Davis later had another  
store at the present Koppel  
corner of the square, with Rob-  
ert Shields. Mr. Shields kept it  
afterwards alone, a few years.

When the war began Ebenezer  
Mason began delivering the  
"State Journal" here, early in  
mornings. From that he grew  
into a book store in E. Peck's  
back, and succeeded Davis &  
Snelling in their brick, where the  
west end of Brown's "Central  
bank" is now. Mason kept books  
with one hand and with the oth-  
er, or perhaps on his head and  
feet, went through Illinois col-  
lege, being graduated in 1867.

He sold out to Jacob Van Dorn  
Stout. "Van" who moved over to  
the east room in Strawn's build-  
ing, corner of South Main street,  
and remained for many years, go-  
ing last to Joplin, Mo.

John J. Adams, a small fellow  
with a big name, kept a news and  
bookstore next to the post office,  
on North Main street in 1860, as  
did Mr. Dunn, and Mr. Bailey  
and John N. and A. J. Ward, one  
door north of the post office on

South Main street, about 1865-  
1872.

This was when the office was  
north of the alley, before John  
Gordon was postmaster, south of  
the alley—first south of the  
square, on the east side of Main.

Thayer & Eames had a book  
store just west of the Mansion  
(Park) house in 1867. H. B.  
Thayer and Charles M. Eames  
were the full names of the part-  
ners. Mr. Eames afterward was  
alone and with Ward brothers,  
until Eames bought a part in-  
terest in the Journal, afterward  
securing all of it, and selling it  
to the Journal company about  
1886. Ward brothers had our  
largest book store unless it was  
Catlin's.

**NOTRE DAME GIVES RUTGERS LESSON**

NEW YORK, Nov. 8.—Notre Dame today converted its football game with Rutgers into a track meet and running event around the eastern team claimed a 48 to 0 victory.

The Indiana eleven which last Saturday, trounced the Army played an even faster game on its second eastern appearance this season. When Foster Sanford's pupils tried to match their forward passes against Knute Rockne's tribe, they looked like a primary class in arithmetic matching wings against a college class in mathematics.

Rutgers had only one chance to score and missed that. It was in the second period. A long forward pass had brought the ball to Notre Dame's 25 yard line when another pass was batted into the arms of a Rutgers player on the two yard line. Then the Scarlet's quarter elected to essay another forward pass with the result that Notre Dame soon took up the offense again.

When the Indiana backfield wasn't aiding and abetting in the manufacture of successful passes, it was running the hundred around end in ten flat. It was one of the swiftest sets of backs seen in the east this season.

Just by way of variety, Wynne and Castner, who each had made fifty yard runs for touchdowns, kicked a field goal apiece.

The game was marked by frequent fumbles and penalties and a display of hale and hearty tackling that sent a number of players to the sidelines.

**HI Y CLUB MET TUESDAY EVENING**

The Hi Y club had its regular meeting at the Northminster church last evening. Forty-seven members enjoyed a fine supper prepared by the ladies of the church. Principal Shafer, of the high school, and Dwight Freeman, the manual training teacher, were present as special guests. After the supper, Mr. Shafer made a short talk to the club on the value of an organization like the Hi Y and the significance of the great interest in it shown by such a large number of the boys. Mr. Freeman also made a short talk.

During the regular business session, the club elected Albert Arter as the club delegate to the Older Boys conference to be held in Decatur right after Thanksgiving.

Mr. Findley then took up the Bible study. The subject for the evening was, "Eight Reasons Why I Believe the Bible is the Word of God."

Mrs. Clifford Sheppard is very ill at her home here, threatened with pneumonia.

### COL. SMITH TALKED TO I. S. D. TEACHERS

Association Gave Informal Reception for New Managing Officer and Mrs. Smith.

The regular monthly meeting of the teachers' association of the School for the Deaf was held yesterday afternoon in Miss Jordan's studio, with the president, Mr. C. Spruit, presiding. Instead of the usual business meeting an informal reception was held in honor of the new managing officer, Colonel Oscar Smith and Mrs. Smith.

Members of the faculty and pupils of the department of home economics served delicious refreshments to the guests, under the direction of Miss Race. Colonel Smith then gave a brief address on the subject of teaching as a profession. He spoke words of praise for the public spirited men and women who rear monuments honoring the good and the great. Continuing Colonel Smith said: "But these physical things deteriorate and decay while the work of the real teacher is unending. It is on a par with the ministry. Usually the minister has to deal with people of mature years, whose habits are already formed. Teachers have many opportunities to influence the pupils who are daily in their school rooms. If children were not educated in school they could not understand the lessons taught in the pulpit."

"The teachers who enter the profession seeking only the salary are likely to be failures. Too many people use the school room as a stepping stone to a higher profession. Those who plan to make teaching a life work make salary a secondary consideration."

"Teachers of the deaf and blind daily strive to unlock closed doors. They make it possible for boys and girls so handicapped to become self-supporting useful citizens."

Mr. Putnam, principal of the school, made a brief talk in his felicitous manner. He spoke of discipline as a vital principle and told how much can be accomplished by harmony and a progressive spirit.

In order to fittingly commemorate Armistice day this store will be closed thruout the day.

## REDUCTION IN RATES DOES NOT HELP ILLINOIS

Thorne Says Has No Significance in This State

(By The Associated Press)  
WASHINGTON, Nov. 8.—Holding that the reduction in live stock rates recently ordered by the interstate commerce commission left the heart of the live stock producing region almost wholly unaffected, the American farm bureau federation through its counsel, Clifford Thorne, of Chicago, today asked the commission to extend the reduction to short hauls. The reduction recently ordered amounted to 20 per cent on hauls where the rates exceed fifty cents.

"That reduction has no significance to the states of Illinois or Iowa," Mr. Thorne argued. "It has very little significance to the entire states of Kansas and Nebraska. Here you have the great heart of the live stock industry almost wholly unaffected by the reduction. Our appeal to the commission and to the railroads has not been for relief, just on the fringe of our territory. The plea of organized agriculture comes from the entire agriculture section and not for the edge of it."

Extension of the reduction was opposed by the carriers through Kenneth F. Burgess, of Chicago, general solicitor for the Chicago, Burlington & Quincy railroad, who told the commission that the live stock industry was suffering from "curtailment of foreign credits and decrease of meat eating in the United States, factors which a rate reduction would not affect."

The additional reduction requested would amount to less than three one-hundredths of a cent per pound and would be of little benefit to the shippers, Mr. Burgess said, adding that it would, on the other hand, further curtail the buying power of the railroads and vitally affect such basic industries as steel, lumber and coal.

(By The Associated Press)

### TWO FIRE ALARMS

The fire department responded to two fire alarms Tuesday. The first at 3 o'clock was from the residence of William Hies, 1122 Ashland avenue. A Burlington engine had set fire to grass along the track which spread into some corn belonging to Mr. Hies and burned one shock of corn. The flames were rapidly making their way toward the residence and were extinguished by firemen who used brooms for the purpose.

The second alarm came from the residence of James T. Ellis, 211 Pine street where fire had started in the roof by sparks from a chimney. The blaze was extinguished with but little damage.

### ELIZABETH BOTH GIVES AND RECEIVES

Boys and girls of the Junior High school are the devoted friends of Elizabeth, a French orphan that they adopted in the after the war period. Although the original time for which the adoption was made has expired, the devotion of the children to their little sister in France continues in a very beautiful way. Recently they planned to send Elizabeth a new dress as a Christmas gift, together with some other things that will make up a delightful Christmas box.

Mrs. H. M. Mosely, who heard of the movement, offered to make the dress and a beautiful garment of navy blue serge trimmed with red and with a red emblem on the left sleeve is the result.

A contribution box placed on the desk of the principal wherein the children deposited their voluntary gifts of money, provided the sum for the purchase of the dress materials and the various articles that are to be sent overseas.

A picture of Elizabeth hangs on the wall in one of the rooms of the David Prince building and it is noticeable that she very much resembles Helen Webster, one of the pupils in the school. Yesterday Helen wore the dress which is soon to be the property of Elizabeth. The Jacksonville girl appeared on the platform clad in the new dress, made a curtsy after the French manner, and in other ways acted the part. For a time many of the boys and girls were mystified and really thought that their little sister from over the sea had come to America to visit them.

But the fact of greatest value is the spirit of unselfishness that the continued interest in Elizabeth has engendered. Those familiar with the situation are fully aware that Elizabeth altho the recipient of favors from the boys and girls of the David Prince school, has made a very decided contribution to the atmosphere of the school.

## BREACH WIDENS IN REPUBLICAN RANKS ON TAX MEASURE

House Leaders Seek to Defer Fight at This Time

(By The Associated Press)  
WASHINGTON, Nov. 8.—The breach in the ranks of House Republicans over the acceptance of the senate maximum income surtax rate of 50 per cent continued today to widen.

House leaders sought to defer the fight at least until after the re-writing of the bill by the conferees gets under way but whether negotiations to that end which were opened with the "insurgents" would be successful remained to be decided. If the negotiations started today to nominate without an agreement the majority leaders plan to bring in a rule to force the bill to conference without instructions to the managers.

In that event the Republican "insurgents" and the Democrats are prepared to make a fight on the rule. Losing in that they say they still will be in a position to renew the fight when the house managers ask for instructions. House leaders are understood to be ready to accept a compromise on the surtax rate at an increase of approximately eight per cent over the 32 per cent maximum fixed in the bill as it passed the house. Majority leaders in the senate look forward to a compromise at around 40 per cent.

Chairman Penrose of the senate finance committee said today he expected the bill to be ready for the president next week. Other senators and some house leaders were less optimistic. Estimates as to the time of final congressional action ranged all the way from ten days to three weeks.

Treasury experts completed today their estimates as to the revenue which would be yielded by the senate bill. The total for this fiscal year was placed at \$33,242,730,000 as compared with \$3,450,000,000 under existing law, that for the next fiscal year at \$2,717,280,000 and that for the calendar year 1923 at \$2,726,280,000.

### C. D. HARDY TO MAKE TWO ADDRESSES HERE

Representative of Swift & Co., Will Appear Before Kiwanis and Rotary Clubs.

C. D. Hardy of the public relations department of Swift & Co., has accepted invitations to come to Jacksonville this week and address the Kiwanis and Rotary clubs. Mr. Hardy will speak Thursday noon at the Kiwanis luncheon at the Peacock Inn, and his subject will be "Notions and Normalcy." The day following,

C. D. HARDY

Friday noon, at the Rotary club luncheon at the Pacific hotel, Mr. Hardy will discuss "Some Business Fundamentals."

Mr. Hardy is a man of large experience both in educational and business lines of activity. He is a product of the farms of western Iowa and received his elementary education in the country and preparatory schools of Crawford county in that state.

In the summer of 1899 he moved to a farm in South Dakota. There he raised wheat and in this way provided himself with funds which made it possible for him to attend college at Mitchell, S. D.

After graduating from college, he spent two years in post-graduate study at Northwestern university. Since that time until June 1, 1920, he was engaged in the profession of teaching and lecturing before audiences of various types—educational, business and chautauqua.

On June 1, 1920, Mr. Hardy entered the department of public relations of Swift & Co. As a representative of that concern, he has been addressing audiences on themes connected with business conditions. Recently he addressed a lumbermen's convention at Asheville, N. C., and the Rotary clubs of Charleston, Savannah, and Columbia, S. C.

Mr. Hardy brings to his work years of training and experience in expressing himself on the public platform. He makes a sincere effort to get accurate and adequate information upon every subject about which he speaks. He believes in being fair to business and business men. In his talks, he puts emphasis on fundamental facts too often overlooked in times of unrest. His message is sane and progressive.

### MAWSON RE-ELECTED TO COUNTY BOARD

G. O. P. CANDIDATE IS CHOSEN BY GOOD MAJORITY

Total Vote Cast In Tuesday's Election Is 4,457—Successful Candidate for Commissioner Has Majority of 439.

In the election yesterday Frank L. Mawson was again chosen a member of the board of county commissioners. Mr. Mawson has a majority of 439 over his competitor, Robert Hamilton of Orleans. The total vote cast was 4,457. Mr. Mawson received 2,488 and Mr. Hamilton 2,069. It was a light vote, considering the fact that both men and women now have the right of suffrage. However, it is recognized that it is difficult to get out a heavy vote in an off year election, so that the totals yesterday were fully up to the average of other years. In Jacksonville districts the candidates for justice of the peace and constable had no opposition and this fact also contributed to make the vote lighter than would have otherwise been true.

Mr. Hamilton carried 12 of the 23 districts outside of the Jacksonville districts, with a majority of 115. This load was very much too small to overcome the substantial majority given Mr. Mawson in the 20 Jacksonville districts.

Mr. Mawson carried 16 of the 20, several of them by decisive majorities and this being particularly noticeable in his home district, No. 20. Mr. Hamilton also made an excellent showing in his home district and in several others outside of Jacksonville had decidedly the advantage. Mr. Mawson has served only one year on the board and that fact taken in connection with his good record, had much to do with his return. The detailed vote is given in tabulated form.

### FORD TURNS TURTLE BUT KEEPS RUNNING

Calvin Bright and Jack Brown of Jerseyville had a narrow escape from death early Tuesday evening when a Ford car in which they were riding turned turtle on Big Sandy hill south of the city. The young men were returning home and the road was slippery from the heavy rain that was falling. The car skidded and turned upside down. The men were able to crawl out of the car and shut off the engine which was still running.

A son of Robert Harney who lives near the scene of the accident went out to shut the gate leading on to the road and saw the car but the lights were not in the right place with the car upside down. He hastened to the house and told his father who went out and helped the men right the car.

Mr. Harney generously invited the two men to remain at his home over night. Aside from broken glass the car was not damaged.

Mrs. George Cocking of Alexander was a local shopper in the city Tuesday.

### MONSTER PARADE IS ARMISTICE DAY PLAN

Arrangements Now In Making for this Feature of Anniversary—Organization Plan Is Explained

Preparations have been going on quietly for the past ten days but in such a forceful way that the Armistice day parade promises to be one of the most impressive events of the kind that Jacksonville has known for years.

Stanley H. Wright is the chairman of the parade committee and has found a most enthusiastic and able co-worker in Colonel Smith of the State School for the Deaf, who will be the grand marshal of the parade.

The members of the committee have found the representatives of the various organizations in Jacksonville very much interested and desirous of co-operating in every way possible to make the parade a success. The representatives are at work with the plans and there is no doubt that Jacksonville will have an Armistice day pageant which will be worthy of the occasion.

Listed below are the names of the organizations and individuals or units that have agreed to have part in the parade. Any other organizations are cordially invited to take part and if their representatives have not been interviewed, Mr. Wright or Colonel Smith will be pleased to hear from them.

With the organizations mentioned there is record also of the place where they are to assemble. Members of the organizations are expected to meet at their respective quarters and then proceed to the point designated for them and to arrive at such locations promptly at 10:45 o'clock. If they assemble earlier such action will not interfere with the plans of the committee, but if they are late the arrangements for the entire parade will be disturbed.

The parade is to move promptly at 11 o'clock, immediately following the moment of silent prayer which is to be observed throughout the United States.

Very special preparations are under way at Jacksonville State hospital and the State School for the Deaf, and these two institutions will be represented more extensively than in any previous parade.

Listed with the organizations below are the names of the marshal and assistants, together with the divisions that have been placed under their care. The aides, messengers and marshals are to report to the grand marshals at the corner of Church and West State streets promptly at 10:30 o'clock. The line of march is also given below. Nothing but extremely bad weather can prevent the success of this Armistice day parade.

**Organizations Listed**  
The following information relative to the Armistice day parade is for all units and individuals who are to take part in the parade. It is to be earnestly hoped that each person and each unit will work to this end of being at the place designated at the time specified so that the parade will move promptly. If every person and unit will do their part this will be one of the best parades that Jacksonville has ever had.

The order is as follows:  
Jacksonville band—West State and Church streets.  
Howitzer company—On Church street between West State and Court streets.  
America Legion—On Church street between West State and Morgan streets.  
Service Star Legion—On Church street between West State and Morgan streets.

Grand Army of the Republic—Chandler street between West State and West State streets.  
Women's Relief Corps—Church and West State streets.  
Daughters of the American Revolution, Red Cross, Salvation Army, North Fayette between West State and Court streets.

Labor unions—Prairie and West State streets.  
Illinois college band—West State and Diamond court.

Brown's Business college—South Kosciusko street.  
Red Men and drill team—In rear of Knights of Columbus.

Citizens in automobiles are to follow at the rear of the parade. The different units will meet at the usual places and proceed to the point designated for them to join in the parade so as to arrive at the point promptly at 10:45. If they are earlier, it will not interfere but if they are late it will disarrange the entire parade.

### Parade Marshals

The following is the assignment of marshals for the parade:  
O. C. Smith—Grand marshal.  
C. Justus Wright—Aide.  
C. L. Reid—Service Star Legion.

### LEAF RAKING DAY AT ILLINOIS COLLEGE

Was Also Roughneck Day—Raided Festivities in the Evening

Freshmen of Illinois college lifted up their heads in thanksgiving yesterday, even if it is a little before the regular season for that, because yesterday was leaf raking day, the day on which the long and tyrannous rule of the Dorm Court ends forever for them.

All day the students were busy raking leaves on the campus, in the most weird assortment of costumes ever seen, for it was annual rough neck day at the college also. Anyone appearing on the scene with a necktie, was quickly and forcibly made to see the errors of his ways.

It was planned to have the regular supper outdoors as usual and to that end extensive preparations were made, but the weather man played havoc with this part of the entertainment.

Everything good to eat was piled on the tables, and then came that cold pouring rain. Teachers stood in the downpour serving food to the last while hungry students darted from the shelter of Beecher Hall and automobiles, grabbed a portion of rainsoaked food, darted back to shelter, of the water, and ate the remains. The weather did not hinder the fun of the occasion, but added zest to it if anything.

Everybody adjourned to the gym after the eats, where the Dorm Court tortured certain of the freshmen for the last time.

### LIVED YEARS ON BREAD AND MILK

For More Than Decade Malady of Alabama Woman Was Continually Sapping Her Strength.

Mrs. H. P. Barrett, of Republic, suburb of Birmingham, Ala., gives the facts of her remarkable experience with Tanlac as follows: "During the past fourteen years I have spent more than one thousand dollars trying to get rid of a complaint that was gradually sapping my strength, but until I got hold of Tanlac nothing helped me. For the past four years I have lived almost entirely on milk and bread, and finally even that went against me.

"Before I had finished the first bottle of Tanlac I got so I could eat anything, and I certainly bless the day I first got this medicine for I believe it has added years to my life. The people in my neighborhood were so surprised at the change in me that fourteen of them by actual count are now taking Tanlac."

Tanlac is sold in Jacksonville by J. P. Shreve, druggist, and by leading druggists everywhere.—Adv.

### WHITE HALL TO MAVE BIG PROGRAM FRIDAY

Armistice Day to Be Fittingly Observed With Free Dinner for All Ex-Service Men—Other White Hall News.

White Hall, Nov. 8.—A big dinner that will be free to all ex-service men will be the opening feature of the Armistice day celebration in White Hall next Friday. There will be a parade at 2:30, headed by the Rawlins Concert band of Roodhouse, and a program of events will be held on a platform to be erected on the bank corner. Main street is to be cleared of traffic during the afternoon and evening. At night a comic parade will be carried out featuring the old "walking club" of girls.

This will be followed by a Legion dance in the K. of P. hall. Ample space has been left in the makeup of the formal program to allow for hilarity of a general character. Mayor Alexander of Roodhouse, has proclaimed a holiday at Roodhouse by calling for the closing places of business, and this means that Roodhouse is going to join in making this a joint affair of the first magnitude. The action of Mayor Alexander has brought universal favorable comment by the people of White Hall, who see in the act still closer friendly relations between the neighboring cities that have already found place in the recent agitation to combine the community high school district of White Hall and Roodhouse in the erection of a high school building midway between the two cities.

The last meeting of the White Hall music club, the second of the present club series, was held at the home of the Duncan sisters, the famous singers. A very interesting program was followed by the usual chorus practice under the direction of Miss Bird Duncan.

Claude and Miss Ellen Parks returned to Pearl today, after being here since Friday last, called by the gathering in the celebration of the 21st birthday anniversary of Albert Smith son of Mr. and Mrs. G. **THE EFFICIENT WOMAN**

We hear a great deal nowadays about the efficiency of women.

In the novels of fifty years ago, who ever heard a woman praised for her executive ability, force and energy? The trail, delicate, helpless ideal of womanhood has passed away. How is it possible to measure up to the ideals of modern womanhood? In the first place, we must keep our bodies in the best possible condition.

Thousands of women have succeeded through daily baths, exercise in the fresh air and Lydia E. Pinkham's Vegetable Compound at the first sign of female weakness.—Adv.

### MISS GRACE DIXON MAKES FINE ADDRESS

Chairman of Woman's State Legislative Committee Talks to County Federation Tuesday.

Miss Grace Dixon, of Chicago, chairman of the state legislative committee of the Federation of Women's Clubs, addressed the county federation luncheon yesterday and declared that women need training for their new civic responsibilities. In quoting from her favorite author, she said, "Life is not for learning or for working, but learning and working are for life."

She ridiculed the idea that a woman will be a good voter if she is a good wife and mother, but she stated that women emphatically need training for their new franchise.

Mrs. W. T. Scott, the county federation president, introduced Miss Dixon after a delightful luncheon served in the Blue Room of the Peacock Inn. The sixty-three members present considered themselves very fortunate to have secured Miss Dixon and were much impressed by what she said.

Throughout her talk she impressed the need for training in civic duties as in anything else and several times stated that "politics can not be divorced from morality." She expressed indignation at the pettiness of women and urged that they look for the ultimate good in things and not cause delays over slight technicalities. She urged that women seek the need of a movement before supporting it, and that when they get behind a bill to do so with understanding. Her final remark summed up her belief in a few words, "He who has vision and nothing else is a drudge and he who has a program and nothing else is a drudge, but he who has both is blessed."

**I. C. ALUMNI TO ATTEND CONFERENCE**

H. J. Dunbaugh and F. R. Elliott Named Representatives of Institution at Disarmament Convocation to be Held in Chicago.

President Rammelkamp has appointed Harry J. Dunbaugh, '99 and Frank R. Elliott, ex '99, as the representatives from Illinois College to attend the college disarmament convocation which is to meet in Chicago on November 13 and 14. These men will attend the conference not only as representatives of the alumni body but also of the Board of Trustees. Several hundred delegates, representing a majority of the colleges and universities of the United States, will meet in Chicago on these dates to endorse the action of President Harding in calling the International Disarmament conference.

This meeting is sponsored by the colleges, universities, schools and various foundations at tax-supported an independent institutions sponsored by the boards of education of the Catholic hierarchy, the educational section of the conference of American Rabbis, the Y. M. C. A. and the Y. W. C. A. This convocation is probably the first concrete union of every religious force in America actively interested in educational advancement to sponsor and endorse a matter of national moment.

In line with the policy on the 26th, resolutions will be adopted endorsing the disarmament movement, and commending the administration for its activity along these lines. The convocation will take such other action as may seem wise.

**THE FARMER AS A BUSINESS MAN**

"I remember reading a short item in the Jacksonville Journal by the Farm Adviser which practically stated as follows:

"The small farm with the dairy herd and poultry is still making money. The farmer who reads this should be and is somewhat surprised as the large farm with the large acreage of grain, the heavy expense necessitated for the raising of grain, is now losing money."

The above short item is worthy of considerable thought and study. Why is it true? How is it done? This then is true. We will have to admit that it is up to us in our farming community to have more small farms and more milk cows.

Take time to look around and get a line from other communities where the soil is not nearly as productive as ours and see how they are making money. Get into Wisconsin or Minnesota and find their answer. You will discover the answer is "the dairy herd for the foundation?" Then how is the work taken care of?

First, the cow which makes it possible to obtain from poultry and pigs, a big source of revenue. When so situated that it is not possible to sell the whole milk profitably, you can sell the cream and use the skim milk as feed for the pigs and poultry. This means healthy hogs and chickens, quick growing pigs, reducing the length of time for marketing the hogs and live, healthy, red-combed chickens, which means a big volume of eggs which always find a ready market.

I am acquainted with many who have raised and are still raising a number of hogs in the midst of the cholera belt and never have hog cholera among their herd, but they are careful. They use large quantities of dip, the sprinkle the hogs, the hog buildings, the bed and the feed lots; they kill the germs. They are also careful in their feeding and do not force the hog to root in the mud for a living.

They also use the dip process with their poultry, spraying the hen roost, nest and buildings. Successful farming needs careful study and work, constant work. The greatest business in the world is farming. The greatest factory in the world is the farm. The farm calls for the greatest study planning and most constant work of any business in the world, to be successful.

What plan is there that succeeds without constant watching? How can we expect to succeed with hogs and chickens if we turn them loose and trust to luck? Luck is another word for success and means a properly managed business in town or on the farm and is in other words, success which comes by careful planning and hard work.

Surely we are not to be classed as lazy and therefore, do not care to bother with the milk cows. Surely we are not dense and, therefore, cannot see the profit the other fellow is obtaining.

Now is the time to have the mortgage lifted, the cow, the hog and the chickens. The boy and girl will learn to be self supporting if only given a chance. Let the boy or girl have a good calf, hog or a few chickens, raise the calf to be a cow, then allow them to have the income derived from this cow. Teach our children to be a help as well as a blessing. Do not rob the child as he or she grows up but give them an opportunity to prove their worth and to be a blessing to the community.

A Farmer.

Bear-Cat plates are porous, so that the electrolyte gets at all the active material all at one swipe. They're strongly hand-pasted, so that the active material stays and wears and lasts.

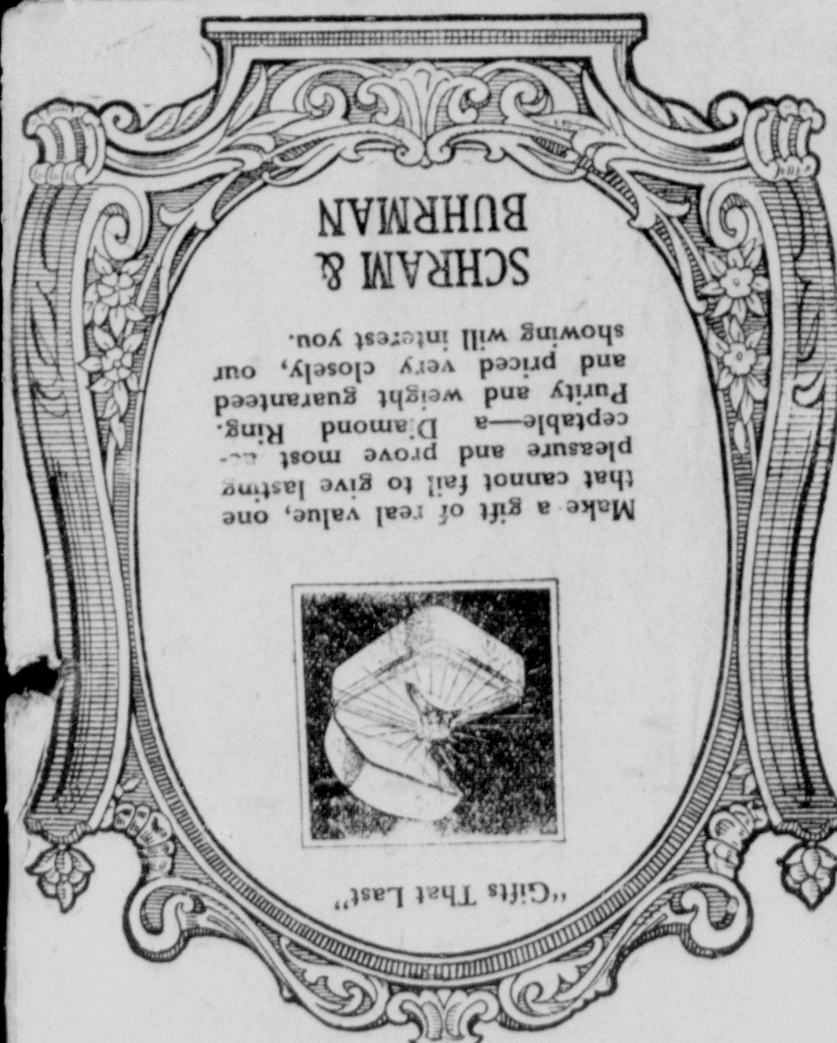

The separators are of specially treated Port Orford cedar—very porous. That helps to get the action.

All current-carrying parts are oversize, too.

## BULLISH SENTIMENT IN WHEAT MARKET

By Associated Press.

CHICAGO, Nov. 8.—Bullish sentiment became more apparent in the wheat market today than for a considerable time past. Some renewal of trans-Atlantic buying of United States wheat, coupled with falling off in receipts helped to a stimulus toward confidence. The finish, also unsettled, was 13 to 13c net higher with December at \$1.04 1/2 to \$1.04 1/2 and May \$1.09 1/2 to \$1.09 1/2. Corn gained 1 to 1 1/2 ad oats 1 to 1 1/2. In provisions the outcome varied from 17c decline to 5c advance.

With Holland reported as having purchased hard winter wheat at the Gulf of Mexico and Sweden said to have taken a liberal amount of rye the wheat market here moved upward in a ready manner subject to only moderate occasional setbacks. Gossip was current that the Italian government would be a buyer next week and the market was unaffected by reports that an Italian firm was in financial difficulties. Offerings from the country proved small. A good deal of attention was also given to complaints from the southwest that prolonged dry weather was injuring the outlook for the winter crop.

Corn and oats were firmer with wheat. Exporters appeared to be after corn as well as wheat and rye.

Acute weakness in the hog market carried lard and ribs down to the lowest quotations yet this season. Later however, the provision market showed something of a rally owing to the strength of grain.

**Engine Oil**

If day after day you could see the inside of your engine, as we do, and recognize the destructive effects of poor oil, you would be willing to pay \$5 per gallon for good oil and you would get off cheap at that.

You know your engine could not run a mile without oil, and it runs hundreds of miles with oil. Then don't you understand why—if you get the best of oil, that you will run much further, than on a poorer grade, for the same amount of wear.

The difference in oil, is in the cost of manufacture. Those manufacturers who use "by-product" crude and work it over and over to produce the maximum amount of oil, are looking for quantity, not quality.

If you run 5,000 miles a season and average 250 miles per gallon, you have consumed twenty gallons of oil.

If you save 30c per gallon on cheap oil you have saved \$6.00.

If it cost \$150.00 to rebuild your engine, does it seem reasonable there is enough at stake to even take a chance on the cheap oil.

Chemists and engineers tell us MOBILEOILS are the best; therefore, we recommend them to our trade.

Those who know, demand it.

Does this sound like "sales talk?" No. It is common sense, hard facts. Think it over.

Men Sent on Mission Reach Spot 6,000 Feet Below Summit

LONDON, Nov. 7.—Sir Francis Younghusband, president of the Royal Geographical society, announced to the society tonight that the expedition sent to attempt to reach the summit of Mt. Everest in the Himalayas, the highest peak in the world, had accomplished the task set for it.

After exploring the mountain from many directions, G. H. Bullock and Mr. Mallory reached a point on the northeastern spur 6,000 feet below the summit from which a way to the summit seemed reasonably practical.

"We now have to find men," Sir Francis said, "who can stand the terrific blizzards and the frightful cold they will encounter on those crucial two miles of the knife edged ridge."

The president added that the society must re-organize the expedition and find a new leader to take the place of Colonel Howard Bury, who would be unable to devote more time to it. Six men he said would be needed for the climbing party.
